

OAKDALE SHOW REPORT

On Sunday 23 April 2017 Bob, Graham with his grandson and his girlfriend and us decided to meet up at McGraths Hill Pub.

It was beautiful weather and we were all looking forward to getting to the show. We decided to follow Graham to the show.

Well we got lost. Kevin and I decided to give it a go at leading the way and we ended up at Oakville Rural Bushfire Brigades shed.

We all had a laugh and then decided to move off again but alas a klunking noise was coming from our ute! We stopped to try to work out where it was coming from - no luck. Graham's grandson Chris got under the car to see if anything was working loose. We took off again and again the klunking noise. This time Bob worked out we had a missing wheel nut. The other wheel nuts on that wheel were loose too. Bob checked the other wheels and they were all ok. We got directions from a passer by and took off again with Graham in the lead. Eventually we got there after more directions and parked near the food and ice cream trucks.

It was hot in the middle of the field with lots of other cars, different makes and models, motor bikes, a double decker bus and more. Quite a lot of people there checking everything out.

We had a great time and left after judging - I think a good time was had by all.
