MAY RUN TO NEPEAN PERFORMING ARTS HIGH SCHOOL - EMU MARKETS

The co-ordinator of the quarterly craft markets, contacted me to enquire if we would be interested in displaying our cars at the event on May 19th. After a quick email to members we were able to commit 6 cars for the event, given the short notice, very positive.

A beautiful day and the cars looked spectacular with BOB and Val in their Ute, Sue and Kevin in Sue's Ute, Tony and Brenda in their low lite 2 door, Yvan in his delightful yellow four door, Terry in his very popular convertible (he drove from his home on the South Coast with the top down) and Heather and Merv in their Morris Major.

Although not a big market, the attendance was quite good and lots of interest in the cars which were beautifully placed next to the Coffee outlet and Kids Jumping Castle, so all bases were covered for attracting interested customers.

We had our May meeting, enjoyed the sunshine and the coffee (very generously provided by Nicole, Market Co-ordinator) bought a few bits and pieces, enjoyed lunch, had a few laughs and the fellows answered lots of questions about the cars.

A very pleasant day.
